

# **Downtown Bakersfield Affordable Housing & Sustainable Communities Project Community Input Form**

What would make it more likely for you or others who live in downtown to walk, bike, or take transit instead of driving a car to places you want to go?

## **Affordable Housing**

What amenities would you like to see at the site?

Any suggestions on the design of the affordable housing?

## **Pedestrian Improvements**

What sidewalk areas in the project area need improvement?

Where are new or improved crosswalks in the project area needed to improve safety?

## **Bike Improvements**

What additions or improvements are needed to bike lanes in the project area to improve safety?

## **Transit Improvements**

What bus stops in the project area need bus shelters?

Any input on the proposed new transit line to the Santa Clarita Metrolink station?

## **Programs**

See back page for list of potential programs. What type(s) of programs are most needed in downtown Bakersfield?

Any other suggestions?

Thank you for providing your input!

## **Programs**

Pedestrian and bicycle safety education programs

Development and publishing of community walking and biking maps, including school route/travel plans

Development and implementation of "walking school bus" or "bike train" programs

School crossing guard training programs

Bicycle clinics

Public outreach efforts to increase awareness and understand the needs of active transportation users

Bike sharing program operations

Ride and/or car share programs

Transit subsidy programs

Education and marketing of transit subsidy programs

Transportation Demand Management (TDM) programs
